Audience	Startups - Curious minded People	Investors: Crypto, LP, High Value Individuals	In Dubbai - but audinece is international	One of the biggest crypto events in the world	
Objective	Connect with **Right** Startups	Connect with LPs and Peak interest invetor prospects	Shwo that Maven 11 is different	Evangelise Crypto	
The Big Idea 1 Minute	Inclusivity, fairness. We at Maven 11 believe...	What the internet did for communication...	Blockchain will do for Value	We are on a path to create the Internet of Value	
	Will 50% of all Fintech transactions be AI Agent to Agent?	Not with the current tools of centralisation in the financial industry			
Your credentials as a speaker 45-60 seconds	8 years in market - Bear and Boom	Backed multiple Unicords - including a number of 1st tickets	I am personally driven by fairneess	- I have a deep aversion to injustice	We can build something better - we HAVE TO
The Problem	100 million people don't have a bank account (correct number?)	Centralisatiion leads to Monopoly pricing	The internet removed friction in communication	Blockchain can do teh same for value	Examples of new centralisation that need to be challenged
	NVIDIA Chips; OpenAI, MS, etc have access = BIG Tech	If AI Agents are the future, this centralisation is not the answer			
Solution/ Future Vision	I recommend: paint the pitcure of your kids...	...followed by; 'How do we get there?' and give...	3-5 (max) high level steps and changes that you believe will happen	(My recommendation: GO BIG! Paint a BIG vision, not just a realistic one)	
What Maven 11 do	**It's all about the people**	We look for best in class founders to bring this vision to life	Yes, tech matters - but our best founders have pivoted...	Founder story 1 (pivot, failure, persistence, unicorn?)	Founder story 2 (? - not sure there'sv time for a 2nd but could be 20-30 seconds each)
